RICK LYMAN

Construction & Facility Planning Manager, Joliet Junior College

"Cushing's customer service was excellent. I received very prompt responses from everyone that I worked with, and I couldn't be happier. We have a project labor agreement in place, so all of our labor has to be union. That wasn't an issue for Cushing. They came in with union labor and the installers did a great job."

JENNIFER HENDRICKSON

Account Executive, Glatz Management Services

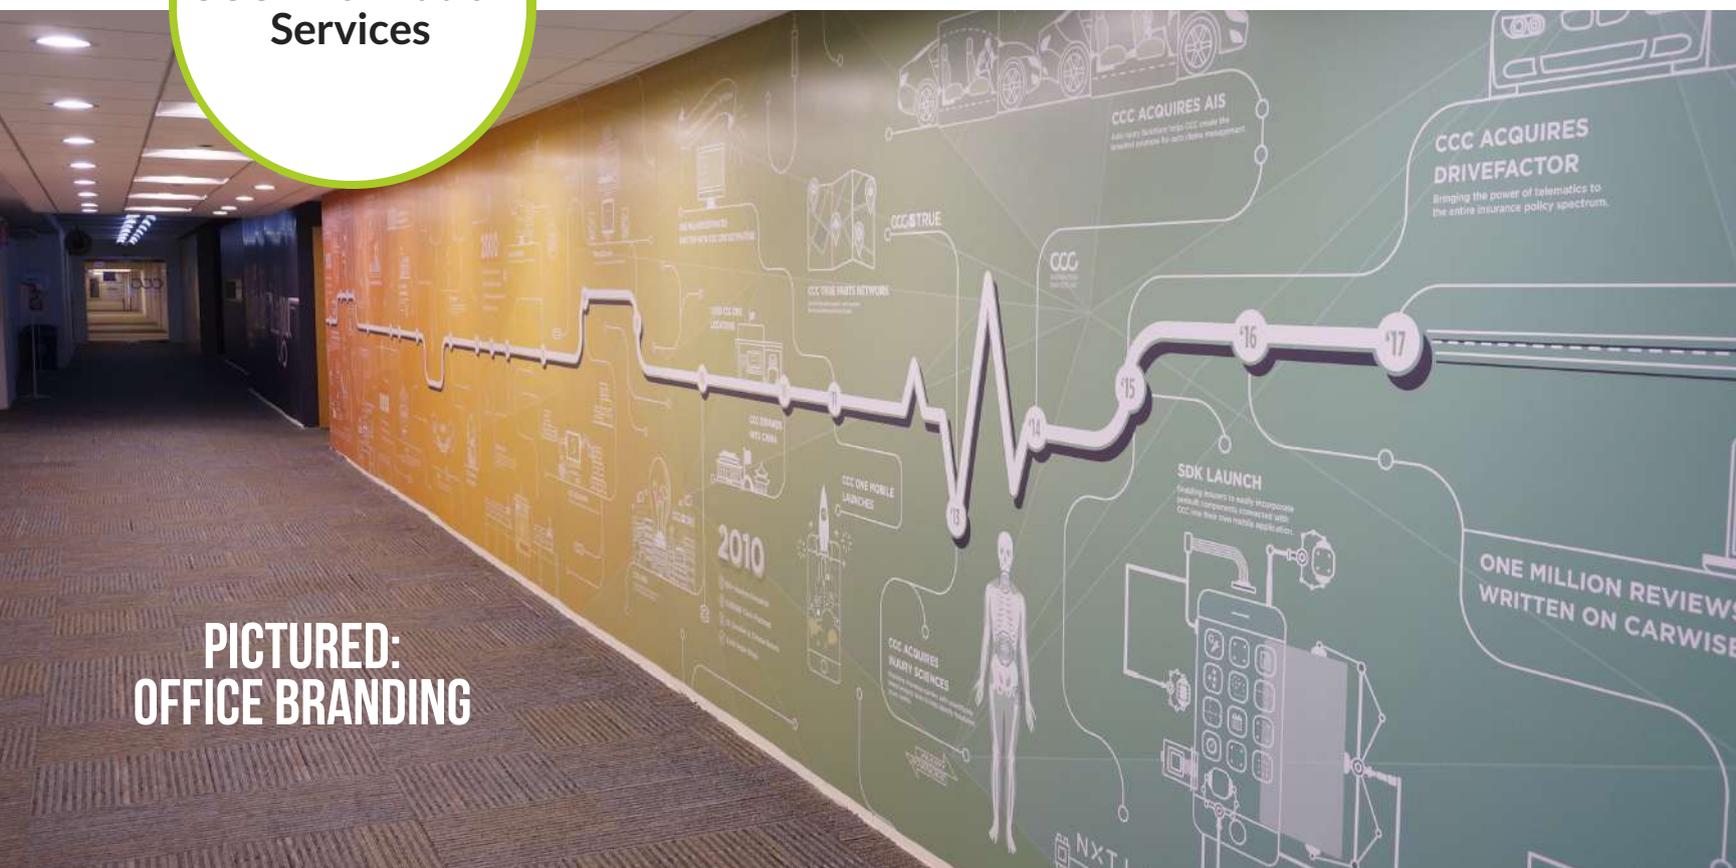

"I manage multiple non-profit associations that run on short deadlines. Not only has Cushing never turned down an order that I've sent their way at the eleventh hour, but they've always approached the request with the highest level of customer service. From program booklets, to directories, to simple copies, they do it all."
